Objective

Driven and passionate Computer Science student with a deep interest in Artificial Intelligence and Game Development. Equipped with a strong academic foundation and hands-on experience in programming, problem-solving, and software development. Seeking opportunities to contribute innovative solutions and expand my skills in a dynamic and growth-oriented environment. Eager to collaborate with a forward-thinking team to develop cutting-edge technologies and create impactful digital experiences.

Education

FAST - National University of Computer and Emerging Sciences

- Bachelor of Science in Computer Science (In Progress)
- Relevant Courses: Data Structures, Object-Oriented Programming, C++

Intermediate Education Board

- Higher Secondary Education in Pre-Engineering

Matriculation Education Board

- Matriculation in Science

Skills

- Programming Languages: C++, OOP, Python, Assembly
- Web Development (HTML, CSS, Java, Bootstrap)
- Game Development: Proficient in SFML
- Artificial Intelligence Fundamentals
- Proficiency in Microsoft Word, Excel and Access

Projects

Centipede Game

Developed a classic arcade game using C++ and SFML.

Candy Crush Clone

Designed and implemented a game inspired by Candy Crush mechanics.

Space Shooter Game

A dynamic space shooter game using Object Oriented Procedure (OOP) principles.

Clothing Website

Developed an e-commerce platform using HTML, CSS, and Bootstrap for a clothing website. Features include categories, shopping cart, and a responsive design.

Restaurant Management System (Assembly)

Developed a Restaurant Management System in Assembly with user registration, login, table reservation, order placement, and payment processing, all accessible through a menu-driven interface.

Certifications

- Coursera: HTML, Microsoft Excel and Artificial Intelligence
- NASCON Participation Certificate
- Global Education Conference Attendance Certificate
- Certified in Photography - IST Media Club
- Advanced Programming Techniques
- Internship Offer Letters: Python Development, App Development, C++, and Artificial Intelligence

Summary

As a highly motivated computer science undergraduate, I possess a solid foundation in programming, AI, and game development. I have hands-on experience developing innovative solutions with C++, OOP, and SFML. With a keen passion for problem-solving, I am committed to delivering impactful results both independently and in team settings. Eager to contribute my skills and grow within the tech industry, I aim to create forward-thinking solutions and push the boundaries of technology while continuing to expand my knowledge and expertise.
